**KaMin and Omya Announce New Agent Partnership Agreement**

**MACON, GA. – May 5, 2025** - KaMin and Omya announced today that the two companies have entered into a new agreement to supply kaolin into the packaging and paper market in Europe. OMYA will continue to provide sales and technical support to customers, and KaMin will now handle order processing and logistics arrangements and maintain inventory directly.

“This new agreement builds on our long-standing, trusted partnership with Omya,” said Mike W. Nelson, KaMin President and CEO. “By leveraging the strengths of both organizations, we will continue to provide exceptional product and service solutions to our customers throughout Europe.”

“This transition represents the next phase in our enduring and successful partnership with KaMin,” noted Thoralf Gliese, Omya Executive Vice President - Sales, Marketing & Innovation. “We are dedicated to maintaining this collaboration to support our focus on advancing fiber-based solutions and ensuring the paper and board industry continues to receive the same unwavering support and expertise our customers have come to expect.”

KaMin and Omya have enjoyed a solid partnership for many years that continues to deliver quality solutions to customers around the globe.

**About KaMin** – *KaMin is recognized as a global leader that enhances the performance of everyday products through innovative mineral solutions. With more than 100 years of experience and nearly 1,000 employees worldwide, the company delivers performance mineral solutions for a broad spectrum of end-use markets including building & construction, automotive, agriculture, health and beauty, packaging, and specialty and graphic paper. From 11 production and converting facilities, KaMin creates solutions from the ground up for customers in more than 70 countries.*

**About Omya** - *Omya is a leading global producer of industrial minerals – mainly fillers and pigments derived from calcium carbonate and dolomite – and a worldwide distributor of specialty chemicals. The company provides a wealth of product solutions that contribute to its customers' competitiveness and productivity in multiple industries such as Construction, Printing & Writing, Technical Polymers, Packaging, Food, Personal & Home Care, Pharmaceuticals, Agriculture, Forestry, Water and Energy. Founded in 1884 in Switzerland, Omya has a global presence extending to more than 175 locations in over 50 countries with 8,000 employees.*
